

To whom it may concern:

Thank you for the opportunity to provide my thoughts on your proposal to establish a National standard that may preempt the Indiana "Telephone Privacy" law protections.

As a citizen of Indiana, I fully support our state's law that provides relief to those citizens [such as myself] from telemarketing calls. Prior to the Indiana "Telephone Privacy" law being enacted, my family was receiving approximately 150 telemarketing calls per month. What a nightmare!

Since the passage of the Indiana "Telephone Privacy" law, we now receive approximately one telemarketing call per month. Needless to say, we are very pleased with our Attorney General's actions that have provided us the ability to eliminate telemarketing calls.

Therefore, I seek your support in not implementing any proposal that would lessen Indiana's "Telephone Privacy" Law Protections. Thank you for your time.

Sincerely,
Jeffrey A. Young
